SOMPO

REINSURANCE WEB-BASED PORTAL

SompoReConnect

We are pleased to introduce **SompoReConnect,** a secure, web-based reinsurance modeling and pricing platform that enables our ceding partners to quote and bind reinsurance coverage quickly and efficiently. SompoReConnect provides simplified data entry with AI capabilities to obtain Auto Liability, General Liability, Workers' Compensation, Property Facultative and Umbrella Reinsurance quotes within minutes, 24/7.

KEY FEATURES

Ease of use

- No need for submissions
- Pre-established Underwriting Guidelines catered to your book
- Required underwriting information can be uploaded and automatically entered utilizing SompoRe's AI-enabled submission automation tools

Flexibility

- Several different layers priced to assess the best fit for the insured
- Layers can be quota-shared with Sompo or reinsured 100%
- The SompoReConnect platform is non-obligatory

Access to enhanced online underwriting tools

- Commercial Auto Risk Scoring Model (CARS)
- Central Analysis Bureau Reports (CAB)
- Experian Credit Reports

Real time management reporting capabilities

- On-demand bordereau and management reports via the platform

Commitment to service

- Assignment of lead and backup underwriters for referrals to ensure the best possible working relationship with the ceding company and their underwriters
- Same-day turnaround time for most referrals
- Thorough annual review of the portfolio, including rate analysis
